## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

~~TOP SECRET RUFF~~

### SUMMARY

This small army barracks is located in the southwest sector of Uzhgorod immediately south of the cemetery (Figure 1). It is a relatively new installation; most of the construction was done after September 1961. It contains eight multistory barracks buildings, four multistory administrative buildings, a motor pool, and

miscellaneous small administrative and storage buildings (Figures 2 and 3). The installation reportedly houses MOOP (MVD) troops.

The installation was covered by [ ] missions between September 1961 and September 1963.

### DESCRIPTION OF INSTALLATION

#### Road Service

The installation has access to Uzhgorod city streets.

#### Administrative and Troop Housing Areas

Area D1 contains ten 40- by 20-foot single story probable BOQ or NCO quarters and four 50- by 50-foot single story administrative buildings.

Area D2 contains eight multistory 150- by 50-foot permanent masonry troop barracks and four multistory permanent masonry 200- by 50-foot administrative buildings.

#### Equipment Storage/Maintenance Area

Area J contains one 500- by 200-foot motor pool, one single story 150- by 35-foot vehicle storage building, and three single story 50- by 50-foot vehicle maintenance buildings.

Hi Dave,

I have checked the TRIESTE docs you dropped off vs our materials in review and there is just a bit of overlap.

We have in review:

- C05842761 (cable 1048 from 10-Aug-71)
- C05842762 (cable 2437 from 12-Aug-71)
- C05844059 (cable 9805 from ??-Jan-71) [ Extended Coverage of RV-3 Recovery Activity]

The others we do not have.

Cheers!

=====

Here is the current list of documents we have on the Trieste underwater recovery. I may add or remove one or two documents as I complete the collection, but this pretty much accounts for what I've been able to find in the CIA Archive. The PRB agreed on a way forward to publish my article in Quest with the pictures included. Apparently, Steve will need to see it once more (I'm not sure why, but that's what we decided on). I'll confirm with Quest their production schedule, but I believe their next publication date will be this August.
